PREAMBLE

What drives progress in today's rapidly evolving world? How can universities lead in shaping solutions for global challenges through innovation and entrepreneurship?

Innovation is more than a buzzword; it is the engine of societal transformation. Around the world, universities are at the forefront of this movement, leveraging the Fourth Industrial Revolution to create sustainable, impactful solutions. The fourth generation of industrial development integrates digital, biological, and physical innovations—reshaping industries and economies globally.

EXAMPLES

- Global Platforms: HULT Prize, Tony Elumelu Foundation (TEF), Global Student Entrepreneur Awards (GSEA), Entrepreneurship World Cup, CBAAS.
